講演タイトル

Tunderstanding interactions between hypoxia and cold-induced autonomic responses:

Current research and experiences as a UK student.

低酸素と寒冷時の自律神経反応の相互作用:最新の研究とイギリスでの学生としての経験」

Visiting Tsukuba as a JSPS summer program fellow, Josh will discuss current research undertaken in the Environmental Ergonomics Research Centre, Loughborough University, UK. He will focus on previous, current and planned work looking at the impact of joint hypoxia and cold stress upon autonomic thermoeffector responses. Finally, he will discuss what is required in order to obtain a master's degree and PhD in the UK.
