

第53回 ARIHHP Human High Performance セミナー

2019年9月17日(火) 15:00~17:00

会場: 筑波大学 5C606

世話人:藤井 直人(2675) 参加費無料

※学外の方は事前の申込みが必要です。 【メール】office@arihhp.taiiku.tsukuba.ac.jp

講演タイトル

Turning up the heat on vascular physiology

血管生理学で注目されはじめた暑熱ストレス」

Lecturer and Researcher Vascular Sciences in the **Department of Surgical Sciences,** University of Otago, New Zealand

Dr Kate Thomas is a Lecturer and Researcher in Vascular Sciences in the Department of Surgical Sciences at the University of Otago in Dunedin, New Zealand. Kate is interested in the influence of environmental stress (e.g., exercise, heat, hypoxia) on cardiovascular function, with a particular interest in the vasculature (arteries and veins) across the spectrum of health; from the athlete to patients with arterial or venous disease.
