「Sports Medicine and Science Research at World Athletics」

Paolo Emilio Adami, MD, PhD, FESC, FACSM

Lecturer Physiology & Pharmacology Department, Sapienza University of Rome, Italy
Laboratoire Motricite Humaine Expertise Sport Sante – LAMHESSE,
Université Côte d'Azur, Nice, France

- The role of International Sports Federations in promoting research and knowledge advancement.
- Exercise physiology, Clinical Sports Medicine and Health Enhancing Physical Activity projects.
- From theory in the classroom to practice on the field of play

Based on my experience as the Chief Medical Officer for WA, I would like to explore the pivotal role of International Sports Federations in fostering research and advancing knowledge. I will also delve into projects related to exercise physiology, clinical sports medicine, and health-enhancing physical activity. Finally, I will address the application of theoretical knowledge acquired in the classroom to practical implementation in the field of play.

University of Tsukuba

主 催	筑波大学体育系 ヒューマン・ハイ・パフォーマンス先端研究センター (ARIHHP)
代 表	高橋 英幸 (センター長 教授)
連 絡 先	ARIHHP プロジェクト推進室 (GS1 棟 202)
